WHITE PEAK DISTILLERY

White Peak distillery is a founder-led business started by husband and wife team, Max & Claire Vaughan. "When we started out with an idea for making single malt whisky near our home in Derbyshire, England, the plan was relatively simple; to make an authentic whisky that was focused on great flavour and transparency, with how / where / who at its core. We wanted to bring people in but never thought we'd be helping to lead a charge to establish a category with the English Whisky Guild. We're delighted to now be part of this special project with Compass Box to further shine a light on the emergence of great whisky-making in England." Claire Vaughan.

EAST LONDON LIQUOR CO.

EAST LONDON LIQUOR CO.

For more than 10 years, East London Liquor has been known for neon-topped no-nonsense gin, vodka and rum showing up on bars and grocery shelves across the UK. In 2022, East London's Rye® and Single Malt whiskies were ready to join the line up, showing just how seriously the distillery takes their approach to no frills, no fuss booze... Instead of leaning on age statements, water sources and tried and tested barrel ageing combinations for their whisky, EastLondon is a team that's led by flavour and only flavour.

COTSWOLDS DISTILLERY

Founded in 2014, Cotswolds Distillery is the first full-scale distillery located in the Cotswolds Area of Outstanding Natural Beauty. Dedicated to crafting world-class spirits with passion, quality, and integrity, the distillery is renowned for its award-winning Cotswolds Single Malt Whisky and Cotswolds Dry Gin.

THE ENGLISH DISTILLERY

The English Distillery is England's oldest whisky distillery and home of 'World's Best Single Malt Whisky 2024'. Founded by the Nelstrop family in Norfolk in 2006, the distillery is still independent and creates multi award winning whisky from honest local ingredients. Our approachable, exceptional portfolio is designed to invite discovery and offer the best possible chance you will find something you love.

SPIRIT OF YORKSHIRE

Co-founded by lifelong friends Tom Mellor and David Thompson, the Spirit of Yorkshire Distillery began making Filey Bay whisky in 2016. The distillery is located a stone's throw from co-founder Tom Mellor's working arable farm in Hunmanby on the Yorkshire coast, which has been in Mellor's family since World War II. The distillery's operations are underpinned by a long-standing passion for sustainable agriculture and careful environmental stewardship: all of the barley used in its production is grown on the farm, making it one of the only genuinely field to bottle distilleries in the UK, while chalk aquifers directly underneath the farm provide a consistent water supply that's ideal for whisky distilling.

COPPER RIVET

Based in Chatham, Kent, Copper Rivet Distillery is one of England's few true grain-to-glass producers. Family-owned and independently run, it oversees every stage on-site - from milling to maturation - using bespoke, patented stills. Innovation and sustainability are central to its ethos, driving efficiency, transparency, and responsible spirit making across the Masthouse Whiskies, Dockyard Gin and Vodka range.
