SPECTRUM SERIES

1.0

TULLIBARDINE 12 JAHRE

**Matured in Pedro Ximénez, Oloroso, Fino,
Amontillado & Manzanilla Sherry Casks**

With the Spectrum Series, we showcase the diverse world of sherry through the lens of our interpretation of Tullibardine Distillery.

Spectrum is a unique series, with an innovative concept to reflect the full spectrum of a specific category. The Spectrum Series 1.0 showcases the sherry universe with a marriage of five sherry variations - from the delicate maritime notes of Manzanilla to the rich, luscious depth of Pedro Ximénez. Further spectrum releases will continue to portray a meticulously composed cuvée of a destined cask category like wine or sherry and offer an exciting Single Malt alternative to styles you may already be familiar with.

SPECTRUM SERIES

1.0

Mit Cadenhead's als ältesten Independent Bottler Schottlands werden hochqualitative und nur sehr limitierte Kollektionen während eines Jahres veröffentlicht. Dafür kreierten wir mit Cadenhead's seit zwei Jahren ein spannendes Konzept, das wir „Spectrum Series 1.0“ – Tullibardine nennen. Es ist eine einzigartige Sherry-Variation, die das gesamte Spektrum der Sherry-Welt – von Manzanilla bis PX – in einer Edition widerspiegelt. Dabei sind alle Fässer bereits mindestens 3 Jahre in Sherry-Fässern gereift. Zum Einsatz kommen ausschließlich First-Fill Casks, ergänzt mit Refill PX-Casks, in denen zuvor Springbank reifte und die damit eine besondere Brücke zur begehrten Campbeltown-Brennerei schlagen.

Fass Finishes – The Sherry Spectrum:

- Refill PX (which previously held Springbank)
- Fresh PX sherry
- Fresh Oloroso sherry
- Fresh Fino sherry
- Fresh Manzanilla sherry
- Fresh Amontillado sherry

The Spectrum Sherry Composition:

Pedro Ximénez Oloroso Manzanilla Fino Amontillado
